

UDRRMU UPDATE

Situational Report (Sitrep) No. 01 re Preparedness Measures for Typhoon “ROLLY” (I.N. GONI)

Releasing Officer:

ARNEIL G. GABRIEL, PhD, JD
CPADM OIC/UDRRMU Secretariat

DATE: 30 October 2020, 1:00 PM

I. SITUATION OVERVIEW

30 October 2020

According to the Philippine Atmospheric Geophysical and Astronomical Services Administration (PAGASA), as of 5:00AM today, Typhoon (TY) “ROLLY” intensifies as it moves westward at 20 km/h. Its maximum sustained wind is 140 km/h near the center and gustiness of up to 170 km/h. The location of TY “ROLLY” is located based on all available data at 1,185 East of Central Luzon.

The location of TY “ROLLY” was located at 1,100 km East of Central Luzon at 10:00 AM. While at 11:00 AM, TY “ROLLY” continues to intensify with maximum sustained winds of 165 km/h near the center and gustiness of up to 205 km/h as it moves westward at 15 km/h. It is forecast to move west-southwestward this afternoon until Saturday evening. Afterwards, the typhoon will turn west-northwestward as it moves over the sea off the coast of Bicol Region towards the eastern coast of Aurora-Quezon area. On the forecast track, the center of the eye of “ROLLY” is likely to make landfall over the Aurora-Quezon area on Sunday evening or Monday early morning. The typhoon is forecast to continuously intensify over the Philippine Sea and is likely to make landfall at peak intensity of 175-185 km/h.

No locality is currently under Tropical Cyclone Wind Signal (TCWS).

II. DISASTER PREPAREDNESS AND RESPONSE

A. University Disaster Risk Reduction and Management Council (UDRRMC)

- a. The NEUST University Disaster Risk Reduction and Management Council (UDRRMC) convened at 30 October 2020, 10:00 AM via video conferencing.

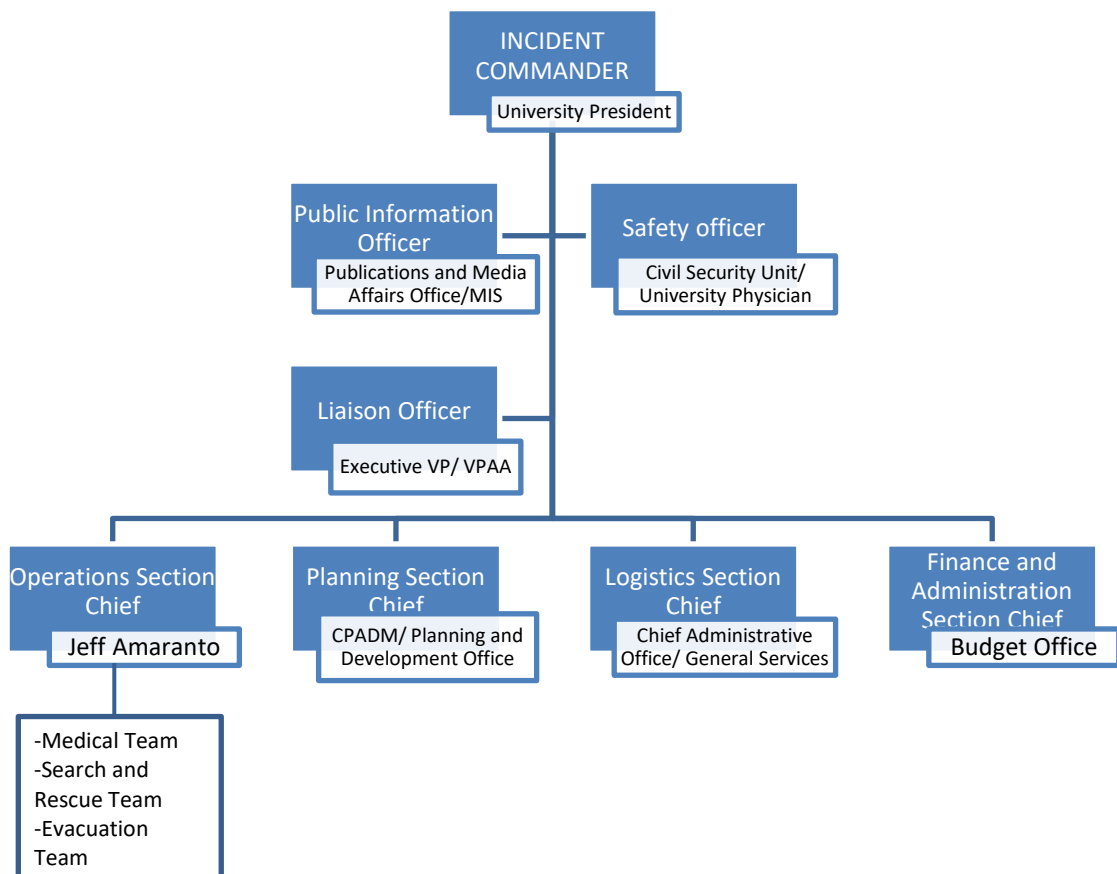

1. NEUST Command/Operations Center

- a. The President’s Office at Sumacab Campus serves as the Command/Operations Center (OpCen)

- b. Maintains RED ALERT Status for the possible effects of TY “ROLLY” and for the COVID-19 Pandemic.
- c. Reiterates safekeeping of the university documents, equipment, and vehicles that might be affected by the typhoon caused by flooding and strong wind
- d. Orders the preparation of the covered court/gym and classrooms for possible evacuees
- e. Alerts the relevant offices/units for the assistance of the frontliners in the designated quarantine area in Sumacab Campus
- f. Reminds the responsible units and personnel of other incidents aside from the effects of the typhoon
- g. Maintains the coordination, reporting, and open communication of the university personnel
- h. Assigns personnel responsible for emergency and disaster operations

2. College of Public Administration and Disaster Management

- a. Provides the possible scenarios for the effects of TY “ROLLY”.
- b. Activates the Incident Management Team (IMT) with the following structure as suggested by the University President and responsible offices:

- c. Continuous monitoring and dissemination of weather and flood advisories.
- d. Recommends Disaster Preparedness measures for the university, personnel, and the students such as:
 - Planning for possible evacuees

- Information, Education, and Communication campaign using social media for information, warning, and safety of the university personnel and students
 - Creation of committee per campus and per college for proper and faster communication
 - Inventory of space for possible evacuation area
 - Safekeeping of the university documents and equipment
 - Releasing of advisory/announcement by the Public Information Officer, the MIS, and the Publications and Media Affairs Office
 - Posting of Emergency Hotline Numbers for public information
 - Preparation for other possible disaster that may arise during typhoon emergency such as fire
 - Preparation of Go Bag (Emergency Preparedness Bag) for everyone's information
 - Establishment of the university and personnel directory for open communication and coordination
- e. Requests for assistance to take care of the family of the disaster personnel who will man the university and monitor its area of responsibility during disaster operations
 - f. Reminds financial preparation for the possible emergency purchase of the university
 - g. Schedules the UDRRMC to convene on Sunday afternoon and Monday morning

3. College of Education

- a. Requests the assistance for the quarantined health workers in Sumacab Campus in case of emergency and possible electricity blackout.

4. Planning and Development Office

- a. Advises the control and protocol of all official announcements of the University in the Facebook Page.
- b. Continues the monitoring of weather updates.

5. Management Information System

- a. Maintains the official NEUST Facebook page.
- b. Monitors the protocol of the announcements and requests for posting in the NEUST Facebook page.
- c. Ensures the maintenance and preservation of the servers and internet connections of the university.

6. Publications and Media Affairs Office

- a. Checks and proofreads all the official announcements in the NEUST page

7. Medical Unit

- a. Prepares and organizes all the relief packs and first aid kits in the guard house.

8. Laboratory High School

- a. Ensures availability of rooms and facilities that might be prepared for the evacuees.

9. Chief Administrative Office/ Infrastructure Development Office/ General Services Office

- a. Prepares facilities for possible evacuation areas.
- b. Protects the university equipment, vehicles, and documents.
- c. Ensures the maintenance and safety of the buildings and electrical connections.
- d. Ensures that all the supplies are ready for emergency and disaster operations.

10. Civil Security Unit

- a. Maintains the safety and security in the University Campuses.
- b. Serves as the watchman of the university.

11. Budget Office

- c. Ensures the availability of funds of the University in case of emergency and disaster operations.

12. Vice President for Academic Affairs

- a. Announces the cease of submissions and deadlines of requirements of the students for consideration of the emergency situations.
- b. Reminds the responsibilities of the deans and faculty regarding classes during emergency situations.
- c. Reminds the safekeeping of the university vehicles in Sumacab Campus.

13. Office of the Student Affairs

- a. Requests the General Services Office to fix the leak in the Office of Guidance and Counselling and secures the office's documents and equipment, particularly the Student Handbook.

14. College of Management and Business Technology

- a. Secures all the documents and equipment of the college with the help of the General Services Office.

15. Gabaldon Campus

- a. Ensures that the campus is flood-free..
- b. Secures all documents and equipment at risk to the effects of typhoon, particularly the strong wind.

16. San Isidro Campus

- a. Ensures that all the documents and equipment in the first floor will be secured on higher rooms.
- b. Secures the Tabon Campus of the possible effects of the typhoon.

17. Atate Campus

- a. Assures that the Campus is flood-free.
- b. Secures all documents and equipment in preparation for the typhoon.

18. Fort Magsaysay Campus

- a. Assures that the Campus is flood-free
- b. Conducts clearing operations activity of trees and branches paid by the Campus.in preparation for the effects of typhoon.
- c. Protects all the documents and equipment of the campus.

B. Go Bag (Emergency Preparedness Bag)

TAMANG KAALAMAN AY KAHANDAAN

EMERGENCY BAG

Mahalaga na mayroong nakahandang mga kagamitan na maaaring dalhin lalo na kung kinakailangang lumikas ng pamilya sa oras ng disaster.

- First Aid Kit, kasama ang mga panglunas sa lagnat, LBM, sugat at iba pa
- Flashlight, kandila, posporo, baterya at silbato
- Radyo at baterya
- Inuming tubig sa saradong lalagyan na sapat para sa tatlong araw
- Pagkaing hindi madaling masira, madaling ihain at sapat para sa tatlong araw
- Kumot, malinis na damit, kapote, botas, tisyu at mga sanitary supplies
- Mga kailangan ng sanggol, matatanda at may kapansanan
- Magdala ng extra na pera tulad ng barya
- Lubid, lumang diyaryo at matibay na lalagyan ng mga mahahalagang bagay

GO BAG EMERGENCY PREPAREDNESS BAG

THE "GO BAG" CONTAINS ITEMS NEEDED BY THE FAMILY TO SURVIVE

REMEMBERS:

- 1 The GO BAG should be checked and replenished every 3 months.
- 2 The GO BAG should be stored properly where it can be easily accessed in case of an emergency.
- 3 Coordinate with leaders on community evacuation plan. Decide with the family where to meet in case there is a need to evacuate.

Items to include:

- COMMUNITY EVACUATION PLAN
- EMERGENCY CONTACTS
- EMERGENCY KIT (FIRST AID KIT)
- EMERGENCY KIT (TOOL KIT)
- EMERGENCY KIT (HYGIENE SUPPLIES)
- EMERGENCY KIT (WATER)
- EMERGENCY KIT (FOOD)
- EMERGENCY KIT (CLOTHING)
- EMERGENCY KIT (PERSONAL CARE)
- EMERGENCY KIT (MEDICATIONS)
- EMERGENCY KIT (TOOLS)
- EMERGENCY KIT (BATTERIES)
- EMERGENCY KIT (FLASHLIGHTS)
- EMERGENCY KIT (RADIO)
- EMERGENCY KIT (WHISTLE)
- EMERGENCY KIT (MONEY)
- EMERGENCY KIT (ID CARDS)
- EMERGENCY KIT (COPIES OF IMPORTANT DOCUMENTS)
- EMERGENCY KIT (EMERGENCY BLANKETS)
- EMERGENCY KIT (EMERGENCY SHAWLS)
- EMERGENCY KIT (EMERGENCY TOWELS)
- EMERGENCY KIT (EMERGENCY SOCKS)
- EMERGENCY KIT (EMERGENCY GLOVES)
- EMERGENCY KIT (EMERGENCY CAPS)
- EMERGENCY KIT (EMERGENCY SHOES)
- EMERGENCY KIT (EMERGENCY BAGS)
- EMERGENCY KIT (EMERGENCY CONTAINERS)
- EMERGENCY KIT (EMERGENCY TUBS)
- EMERGENCY KIT (EMERGENCY BUCKETS)
- EMERGENCY KIT (EMERGENCY TRAYS)
- EMERGENCY KIT (EMERGENCY PLATES)
- EMERGENCY KIT (EMERGENCY CUPS)
- EMERGENCY KIT (EMERGENCY SPOONS)
- EMERGENCY KIT (EMERGENCY FORKS)
- EMERGENCY KIT (EMERGENCY KNIVES)
- EMERGENCY KIT (EMERGENCY UTENSILS)
- EMERGENCY KIT (EMERGENCY TOOLS)
- EMERGENCY KIT (EMERGENCY EQUIPMENT)
- EMERGENCY KIT (EMERGENCY SUPPLIES)
- EMERGENCY KIT (EMERGENCY MATERIALS)
- EMERGENCY KIT (EMERGENCY PRODUCTS)
- EMERGENCY KIT (EMERGENCY SERVICES)
- EMERGENCY KIT (EMERGENCY INFORMATION)
- EMERGENCY KIT (EMERGENCY DOCUMENTS)
- EMERGENCY KIT (EMERGENCY RECORDS)
- EMERGENCY KIT (EMERGENCY FILES)
- EMERGENCY KIT (EMERGENCY FOLDERS)
- EMERGENCY KIT (EMERGENCY BINDER)
- EMERGENCY KIT (EMERGENCY LABELS)
- EMERGENCY KIT (EMERGENCY STICKERS)
- EMERGENCY KIT (EMERGENCY MARKERS)
- EMERGENCY KIT (EMERGENCY PENS)
- EMERGENCY KIT (EMERGENCY PENCILS)
- EMERGENCY KIT (EMERGENCY ERASERS)
- EMERGENCY KIT (EMERGENCY RULERS)
- EMERGENCY KIT (EMERGENCY COMPASSES)
- EMERGENCY KIT (EMERGENCY PROTRACTORS)
- EMERGENCY KIT (EMERGENCY CALCULATORS)
- EMERGENCY KIT (EMERGENCY RINGERS)
- EMERGENCY KIT (EMERGENCY SCISSORS)
- EMERGENCY KIT (EMERGENCY TAPES)
- EMERGENCY KIT (EMERGENCY GLUES)
- EMERGENCY KIT (EMERGENCY STAPLERS)
- EMERGENCY KIT (EMERGENCY HOLE PUNCHERS)
- EMERGENCY KIT (EMERGENCY SHARPENERS)
- EMERGENCY KIT (EMERGENCY ERASERS)
- EMERGENCY KIT (EMERGENCY RUBBERS)
- EMERGENCY KIT (EMERGENCY WAXES)
- EMERGENCY KIT (EMERGENCY GLUES)
- EMERGENCY KIT (EMERGENCY STAPLERS)
- EMERGENCY KIT (EMERGENCY HOLE PUNCHERS)
- EMERGENCY KIT (EMERGENCY SHARPENERS)
- EMERGENCY KIT (EMERGENCY ERASERS)
- EMERGENCY KIT (EMERGENCY RUBBERS)
- EMERGENCY KIT (EMERGENCY WAXES)

C. IEC Materials

1. Ano-ano ang dapat gawin bago, habang, at pagkatapos ng baha?

Bago ang baha:

	a) Makinig sa kinauukulan; tumutok sa radyo, TV, o internet para sa mga ulat-panahon mula sa PAGASA at iba pang katuwang na ahensiya ng gobyerno.		b) Maghanda sa posibilidad ng paglikas sa mas mataas na lugar o evacuation center bago pa man magkaroon ng storm surge. Maging mahinahon. Maghanda at magdala ng mga gamit tulad ng damit, pagkain at inumin, first aid kit, flashlight, at radyong de-baterya.
	c) Lumikas sa mataas na lugar. Lumayo nang hindi bababa sa 500 metro mula sa patag na baybayin kung direktang dadaan ang bagyo na magdudulot ng storm surge sa inyong komunidad.		d) Bago lumikas, suriin ang bahay at kumpunihin ang mahihinang bahagi nito. Isara ang mga bintana at ibaba ang main switch ng kuryente. Ilagay sa mataas na lugar ang mahahalagang kasangkapan.

Kung may babala ng baha

	a) Maging handa sa posibilidad ng pagbaha kung patuloy ang pag-ulan. Ang pagbaha ay mangyayari kung ang lupa ay napuno na ng tubig-ulan.		
	b) Makinig sa radyo o manood sa telebisyon para sa "emergency instructions"		c) Mag-imbak ng malinis na tubig na tatagal ng tatlong araw sakaling mawalan ng "water supply."
	d) Ilagay ang mga kagamitan sa mataas na bahagi ng bahay.		e) Dalhin at isilong ang mga alagang hayop sa mataas na lupa.
	f) Kung kinakailangang lumikas, gawin ito agad nang mahinahon bago malubog sa tubig-baha.		g) Bago lumikas, ibaba ang "main switch" ng kuryente at isara ang buong kabahayan.

Pagkatapos ng baha

a) Mag-ingat sa pagpasok sa bahay at gumamit ng flashlight.

b) Tiyaking walang putol na kawad ng kuryente sa labas at loob ng bahay upang maiwasang pagkakuryente o pagsisimula ng sunog.

c) Huwag kainin ang natirang pagkain at tubig sa loob ng bahay, kung hindi pa tiyak na hindi ito naabot ng tubig baha.

d) Ipagbigay-alam sa kinauukulan ang mga putol na kawad ng kuryente o telepono.

e) Huwag bubuksan ang "main switch" o gumamit ng kagamitan de-kuryenteng napasok ng tubig baha hanggang hindi ito natitignan ng elektrisyan.

f) Ikonsulta sa doktor ang kalusugan kung kinakailangan.

g) Iwasang pumunta at huwag makiusyoso sa lugar ng sakuna (disaster areas) nang hindi makasagabal sa "rescue and emergency operations."

TROPICAL CYCLONE

Tropical cyclone is an extreme weather condition characterized by large scale circulation of strong winds, low atmospheric pressure and heavy rains. It can cause flooding, storm surge, landslides and flash floods.

Ang bagyo ay isang uri ng lagay ng panahon na nagdudulot ng matalakas at mabilis na hangin at pag-ulan na maaaring maging sanhi ng matitinding pagbaha, daluyong ng dagat at pagguho ng mga lupa.

Super Typhoon Lawin (2016) made its landfall in Cagayan Valley, packing winds of up to 225 kilometers per hour and gustiness of up to 315. Fourteen people were confirmed dead and almost 20,000 houses were totally damaged.

Ang Bagyong Lawin ay tumama sa kalupaan ng Cagayan Valley, na may taglay na lakas ng hangin na 225 kilometro kada oras at bugso na umaabot ng 315. Labing apat ang kumpirmadong patay at halos 20,000 kabahayan ang nasira.

BEFORE

MONITOR THE NEWS FOR WEATHER UPDATES.

Monitor the news for weather updates, warnings and advisories. *Alamin ang balita ukol sa panahon at mga anunsyong pangkaligtasan.*

Know the early warning and evacuation plan of the community. *Alamin ang plano ng komunikad sa pagbibigay-babala at paglikas.*

Check the integrity of your house and repair weak parts. *Surin ang bahay at kumpunihin ang mga mahina o sirang bahagi nito.*

Prepare your family's GO BAG containing items needed for survival. *Ihanda ang GO BAG na naglalaman ng mga pangangailangan ng pamilya.*

Put livestock and pets in safe area or designated evacuation site for animals. *Ilikas ang mga alagang hayop sa ligtas na lugar.*

When notified, immediately go to the designated evacuation center. *Kapag inabutan ng kinauukulan, mabilis na lumikas sa itinakdang evacuation center.*

DURING

STAY ALERT AND STAY TUNED.

Stay calm. Stay indoors and tune in for latest news and weather updates. *Manatili mahinahon. Manatili sa loob ng bahay o evacuation center at makinig sa pinakabagong balita at taya ng panahon.*

Turn off main electrical switch and water valve. *Patayin ang main switch ng kuryente at valve ng tubig.*

Use flashlight or emergency lamp. Be cautious in using candles and gas lamps. *Gumamit ng flashlight o emergency lamp. Maging maingat sa paggamit ng kandila o gasera.*

Stay away from glass windows. *Umiwas sa mga salaming bintana.*

AFTER

REMAIN ALERT AND BE CAUTIOUS.

Wait for authorities to declare that it is safe to return home. *Hintayin ang abiso ng kinauukulan ng ligtas ng bumalik sa tahanan.*

Stay away from fallen trees, damaged structures and power lines. *Umiwas sa mga natumbang puno, nasirang gusali at linya ng kuryente.*

Do not go sightseeing as you may hinder the work of the emergency services. *Huwag gumala upang hindi maabala ang emergency services.*

Be cautious in checking and repairing the damaged parts of your house. *Maging maingat sa pagsasayos ng mga nasirang bahagi ng bahay.*

Check for wet or submerged electrical outlets and appliances before turning on electricity. *Siguraduhing walang basa o nakababad na outlet o kagamitan bago buksan ang linya ng kuryente.*

Throw away rainwater in cans, pots and tires to prevent breeding of mosquitoes. *Itaon ang mga napong tubig sa lata, pasong at gulung upang hindi pamahayan ng lamok.*

FLOOD

Flood is the rising of water level until it overflows its natural or artificial confines and submerge the surrounding area.

Ang baha ay pag-apaw ng sobra-sobrang tubig sa natural nitong daluyan tulad ng sapa, ilog at dagat dahilang upang malubog ang nakapalibot ditong lupa.

In September 2009, Tropical Storm Ondoy brought a month's worth of rain, flooding vast areas in Metro Manila and neighboring provinces. Almost 500 people were killed and more than 500 were injured.

Noong Setyembre 2009, ang malakas na pag-ulang hatid ng Bagyong Ondoy ay nagpabaha sa mga lugar sa Kalakhang Maynila at karatig lalawigan. Halos 500 katao ang nasawi, habang higit sa 500 iba pa ang nasugatan.

BEFORE

KNOW THE HAZARDS IN YOUR AREA.

Monitor the news for weather updates, warnings and advisories.
Alamin ang balita ukol sa panahon at mga anunsyong pangkaligtasan.

Know the flood early warning and evacuation plan of the community.
Alamin ang plano ng komunidad sa pagbibigay-babala at paglikas dahil sa baha.

Participate in community flood preparedness actions and drills.
Makilahok sa mga pagsasanay at paghahanda ng komunidad sa baha.

Secure your home. Move essential furniture and items to the upper floor.
Sigurduring ligtas ang iyong tahanan. Iakyat ang mga mahahalagang kagamitan sa mas mataas na lugar.

Before evacuating, turn off all main switches of electricity, water and LPG tanks.
Bago lumikas, isarado ang mga main switches ng kuryente, tubig at tangke ng LPG.

Put livestock and pets in a safe area or designated evacuation sites for animals.
Ilikas ang mga alegang hayop sa ligtas lugar.

When order is received, immediately evacuate to higher and safer grounds.
Kapag inabutan ng kinasukulan, mabilis na lumikas sa mataas at ligtas na lugar.

DURING

STAY ON HIGHER GROUNDS.

Stay indoors and stay tuned for latest news and weather updates.
Manatili sa loob ng bahay at patuloy na makinig sa ulat ng panahon.

DO NOT touch electrical equipment if you are wet or standing in floodwater.
Huwag hawakan ang mga kagamitang de kuryente kung ikaw ay basa o nakatayo sa tubig baha.

DO NOT go swimming or boating in swollen rivers.
Huwag lumangoy o mamangka sa umaapaw na ilog.

DO NOT cross streams when water level is already above the knee.
Huwag tumawid ng sapa o ilog kung lagpas tuhod na ang tubig.

DO NOT walk or drive through flooded areas.
Huwag maglakad o magmaneho sa lugar na baha.

AFTER

STAY ALERT AND KEEP SAFE.

Leave the evacuation area only when authorities say it is safe to return home.
Lisanin lamang ang evacuation area kapag ligtas na ayon sa kinasukulan.

Report fallen trees and electric posts to proper authorities.
Ipagbigay-alam sa kinasukulan ang mga natumbang puno at poste ng kuryente. o mga linya ng tubig at telepono.

Check for wet or submerged electrical outlets and appliances before turning on electricity.
Sigurduring walang basa o nakabalad na outlet o kagamitan bago buksan ang linya ng kuryente.

Check your house for possible damages and repair as necessary.
Surin ang bahay kung may mga nasira at ipaayos ang mga ito kung kailangan.

Make sure that the food and water for drinking are not contaminated by flood water.
Sigurduring malinis ang pagkain at inuming tubig.

Throw away rainwater in cans, pots and tires to prevent breeding of mosquitoes.
Iapon ang naipong tubig sa mga lata, pazo at gulong upang hindi pamahayan ng lamok.
